Short description:

Modified the original effector to use a 1/4" BSPT fitting I bought on Amazon for 3mm filament.

Description:

<p>Included both the effector stl and the plate_1x for those printing from scratch. Sources are up on GitHub here: https://github.com/mattsch/kossel/tree/3mm</p><p>I've printed and verified the fitting works but haven't actually commissioned my printer yet so no guarantees it won't blow up once it's running.</p>

If you can, please use the online documentation found at <http://www.youmagine.com/designs/mini-kossel-3mm-effector> because those may have been updated. Also, there you can interact and provide praise and/or feedback.
